

# NaturExpert Ölverdünnung

## Technical data sheet

- Characteristics:** **NaturExpert Ölverdünnung** is a clear, colourless liquid based on skin-friendly isoparaffins with mild odour to adjust the viscosity of **NaturExpert Ölen** (oils) and **Ölwachsen** (oil waxes) and to clean the tools that have been used for their application.
- Area of application:** For all solvent-based **NaturExpert Öle** and **NaturExpert Wachse**.
- Mixing ratio:** Add max. 20% to the main product.
- Storage:** Storable for at least 3 years in unopened original containers. Always close the container tightly and protect the content from incoming air.
- Special remarks:** Adding **NaturExpert Ölverdünnung** to the main product can extend the drying time.
- Please consider:** The product and the recommendations in this technical data sheet correspond to today's state of the art. Our oral and written application recommendations, that are based on years of experience and provided to the best of knowledge, are non-committal and do not establish a contractual relationship and secondary obligation of the sales contract. They do not release the user from his obligation to verify on his own responsibility the existing substrate and the suitability of our products for the intended purpose. In case of doubt, suitability and spreading rate are to be tested by creating a sample. If our products are combined or intermixed with third-party products, we cannot guarantee a perfect surface finish. Our general terms and conditions apply.

This technical data sheet replaces all previous versions.
