

NaturExpert Wischpflege

Technical Information

- Characteristics:** **NaturExpert Wischpflege** is a universal floor cleaning and care product and contains cleaning and nourishing ingredients. **NaturExpert Wischpflege** is highly concentrated, economical and leaves a satin glossy and dirt-repellent film on all water-resistant floorings. This protective film becomes more compact and glossy by polishing.
No self-ignition!
A perfect result can only be achieved by carrying out the following instructions.
- Area of application:** **NaturExpert Wischpflege** is used for cleaning and maintenance of floors waxed and oiled with **NaturExpert products**. **NaturExpert Wischpflege** is also suitable to clean painted wood surfaces.
- Processing:** Before cleaning wood floors by sweeping and vacuuming, remove loosely adherent dirt particles. In case of first use to build a protective film and depending on the nature of the flooring add 500-750 ml of the product to 8 litres of water and wipe this solution on the flooring using a damp cloth. Use it at earliest 8 days after the finishing of the flooring. For daily cleaning, add 100-150 ml of **NaturExpert Wischpflege** to 8 litres of water, wipe with a damp cloth and do not re-wipe with clear water.
- Storage:** **NaturExpert Wischpflege** can be stored for 1 year in unopened original containers. Store and transport at a temperature between +4°C and 35°C. Close tightly opened container and consume soon after opening.
- Special remarks:** Generally do not use neutral cleaning agents, third-party products containing soap or micro-fiber cloth, as these may destroy waxed surfaces.
- Please consider:** The product and the recommendations in this technical data sheet correspond to today's state of the art. Our oral and written application recommendations, that are based on years of experience and provided to the best of knowledge, are non-committal and do not establish a contractual relationship and secondary obligation of the sales contract. They do not release the user from his obligation to verify on his own responsibility the existing substrate and the suitability of our products for the intended purpose. In case of doubt, suitability and spreading rate are to be tested by creating a sample. If our products are combined or inter-mixed with third-party products, we cannot guarantee a perfect surface finish. Our general terms and conditions apply.

This technical data sheet replaces all previous versions.
